

MASK FOR TASK: COVER FOR COVID

Don't waste PPE if you only need to cover for COVID

If the task demands it = wear the appropriate mask/respirator

For moving around site and protecting each other = wear a face covering of suitable material

Wear your mask, respirator or face covering like this:

DON'T wear it under your nose or mouth

DON'T touch or adjust it without cleaning your hands

DON'T wear it under your chin or around your neck

DON'T wear it on your head or around your arm

Don't just wear it, take care of it!

Wash your hands thoroughly before you touch your mask.

When putting on or taking off, only touch the loops or ties.

When not in use, store securely in a sealable bag.
